

Your Employee Benefit can help protect your identity.

Everyday we put our information at risk on the internet.

In today's world of online shopping, using public Wi-Fi and giving out Social Security numbers as a form of ID, our personal information can be exposed. Unfortunately, free credit monitoring simply alerts you to credit issues. LifeLock not only has proprietary technology to detect a range of identity threats, if you do have an identity theft problem, our U.S.-based team of Identity Restoration Specialists can help fix it.

No one can prevent all identity theft or cybercrime.
